THE ALGARVE'S CASE · PORTUGAL · EUROPE

From the Algarve, in Portugal, for Europe.

A news company that tells the region's technology story, carries it to Lisbon, Europe and AI agents, maps its talent and helps start its startups, with partners across the Algarve, Portugal and the European Union.

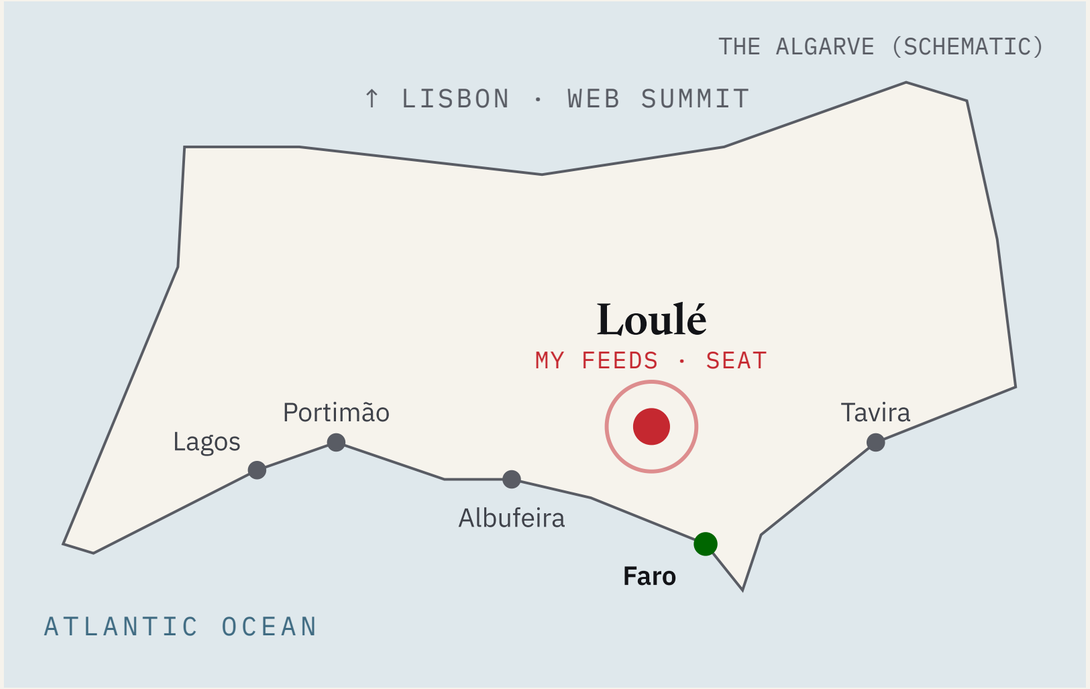

AN ALGARVIAN STARTUP

Incorporated in Loulé. Building here. Joining the region's ecosystem.

- **My Feeds** (MYFEEDS AI, UNIPESSOAL, LDA), incorporated in Portugal on 22 October 2025, seat in Loulé, district of Faro.
- **The publisher of PrompTugal.news,** expected to take the PrompTugal name.
- **Dinis Cruz,** sole director and 100% shareholder.
- **Joining Algarve Evolution** as a company: one of the partners we want across the Algarve, Portugal and Europe.
- **Not new to the region:** Dinis Cruz organised and drove the first OWASP Summit, held in the Algarve in 2008.

Company facts as cited from the business registers by web-summit.sgit.ai/investors/company/; ownership, membership and the summits' organiser from Dinis Cruz, 7 November 2026; OWASP Summit 2008: open-source.sgit.ai/owasp.

ALGARVE EVOLUTION'S MANDATE: DIVERSIFY THE ECONOMY BEYOND TOURISM

Algarve Evolution has set the region a target for 2032. We want to help the Algarve get there.

500
companies to support

150
startups to help create

50,000
people to reach

SO FAR, AS ALGARVE EVOLUTION REPORTS IT

2018
a small group of local entrepreneurs begins

118
active members (1 Nov 2026)

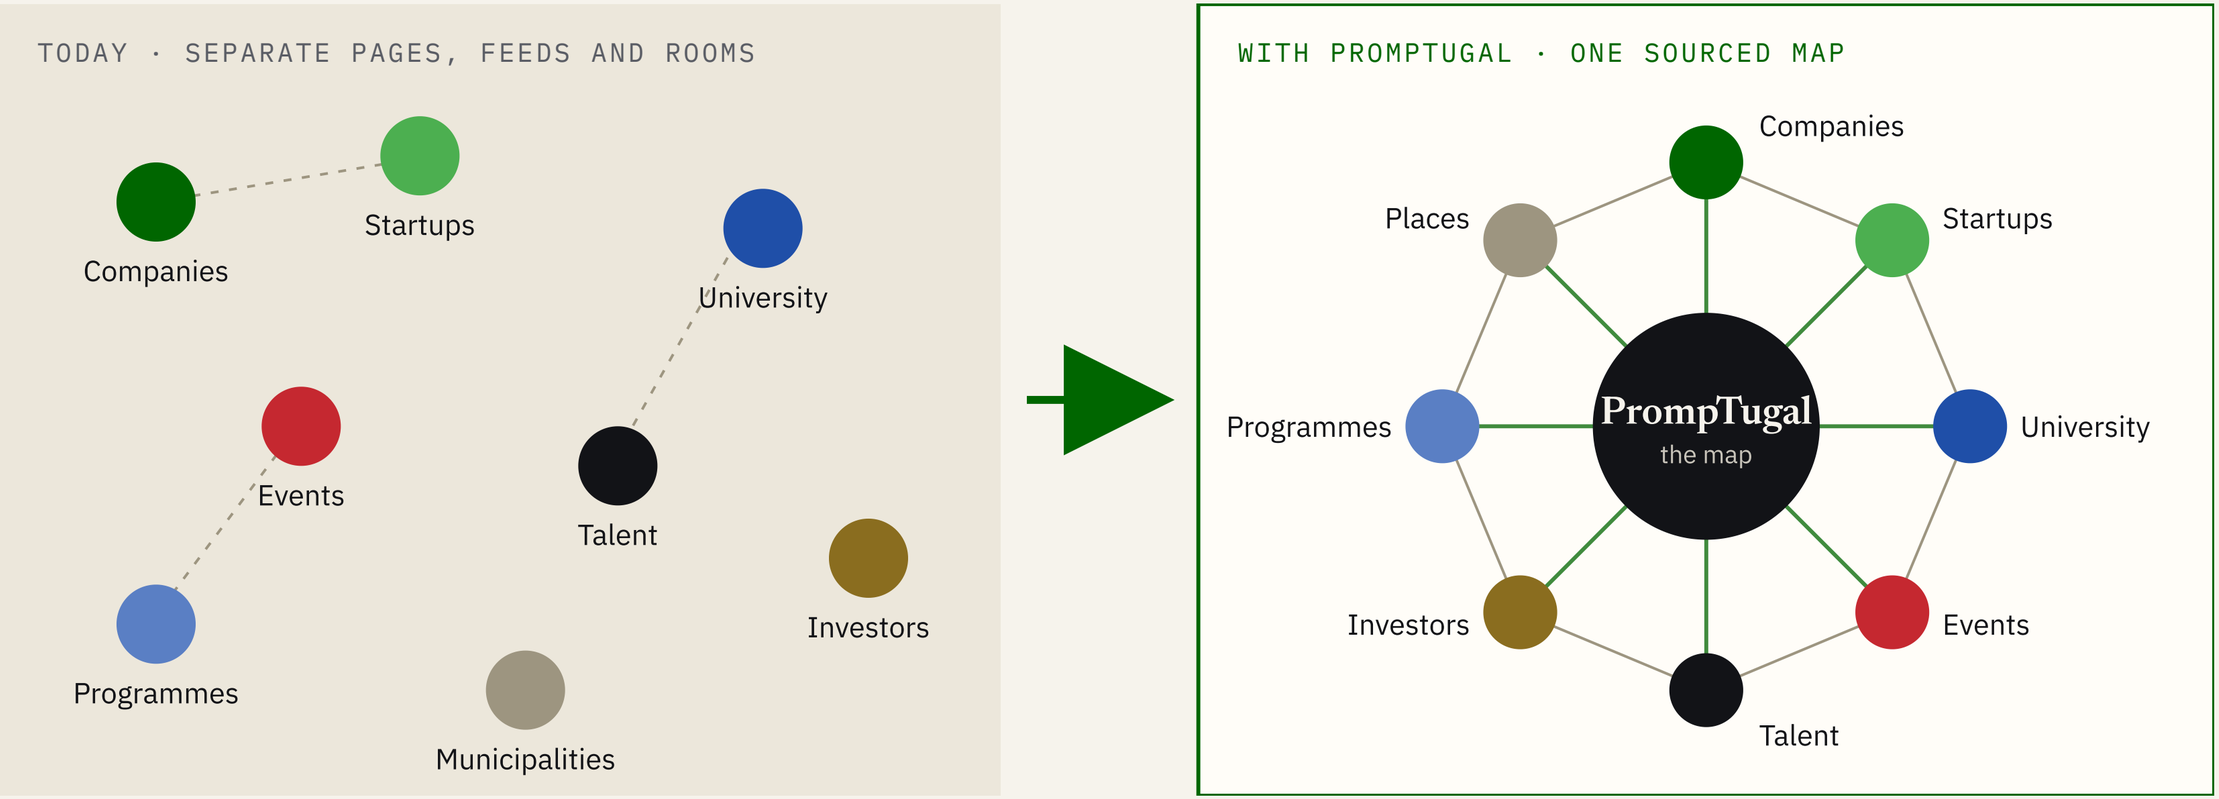

142+
events in 2024 and 2025

5,597
participants at those events

Targets, not results. Figures are self-reported by Algarve Evolution and not verified by us: Portugal Startup News, 1 Nov 2026; algarveevolution.pt; read 6 Nov 2026 (promptugal.news/portugal/algarve-evolution/).

THE ALGARVE'S TECH STORY IS SCATTERED

Everything is here. Nobody can see it whole. We connect the dots.

Nodes are kinds of things, not named organisations. Each node on the live map carries its public source and the date it was read.

A REGIONAL BEAT

What is going on in the Algarve, every day, sourced.

Events and launches

What is on, who runs it, what came out of it: kept current, not written once and forgotten.

Every fact with its source

The public page it came from and the date it was read; every article signed.

Portuguese and English

For the region and for the world reading about it, as the platform becomes multilingual.

THE ALGARVE · FROM OUR SOURCED PAGE

7 NOV 2026 · LAGOS

DevFest Lagos 2026, with Algarve Evolution as a partner

algarveevolution.pt, read 6 Nov 2026

OCT 2026 · PROGRAMME

Founder2Founder: a six-month growth programme, 8 companies from 41 applications

Portugal Startup News, 1 Nov 2026

JAN 2026 · INCUBATOR

Algarve Evolution's incubator recognised by Startup Portugal

Portugal Startup News, 1 Nov 2026

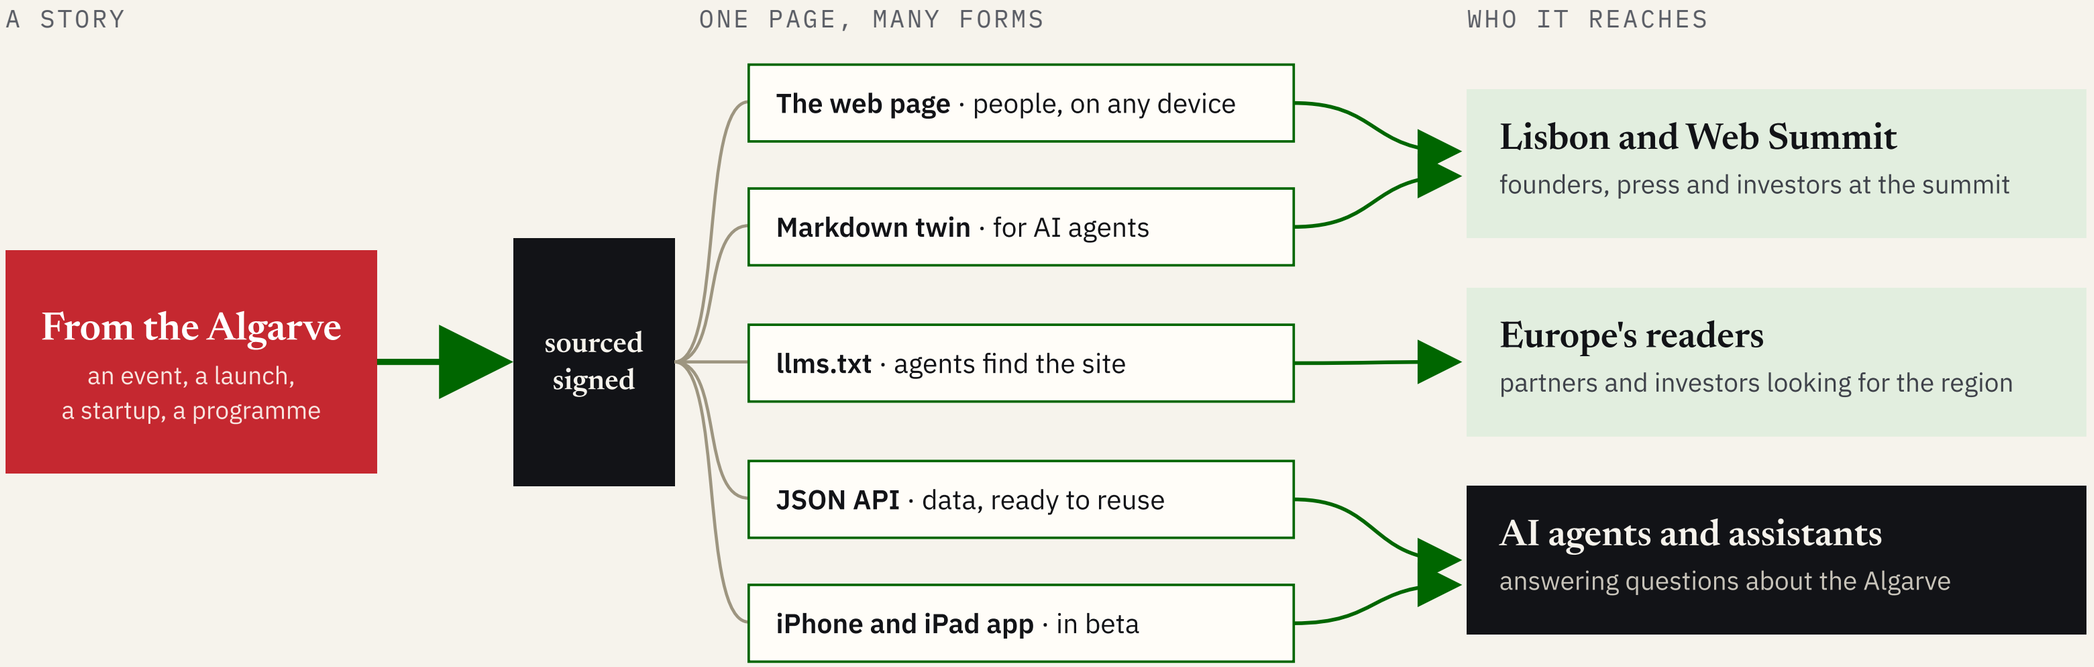

2027 · ALGARVE TECH HUB SUMMIT

Confirmed to return; no date or venue announced yet

Portugal Startup News, 1 Nov 2026

THE ALGARVE, VISIBLE

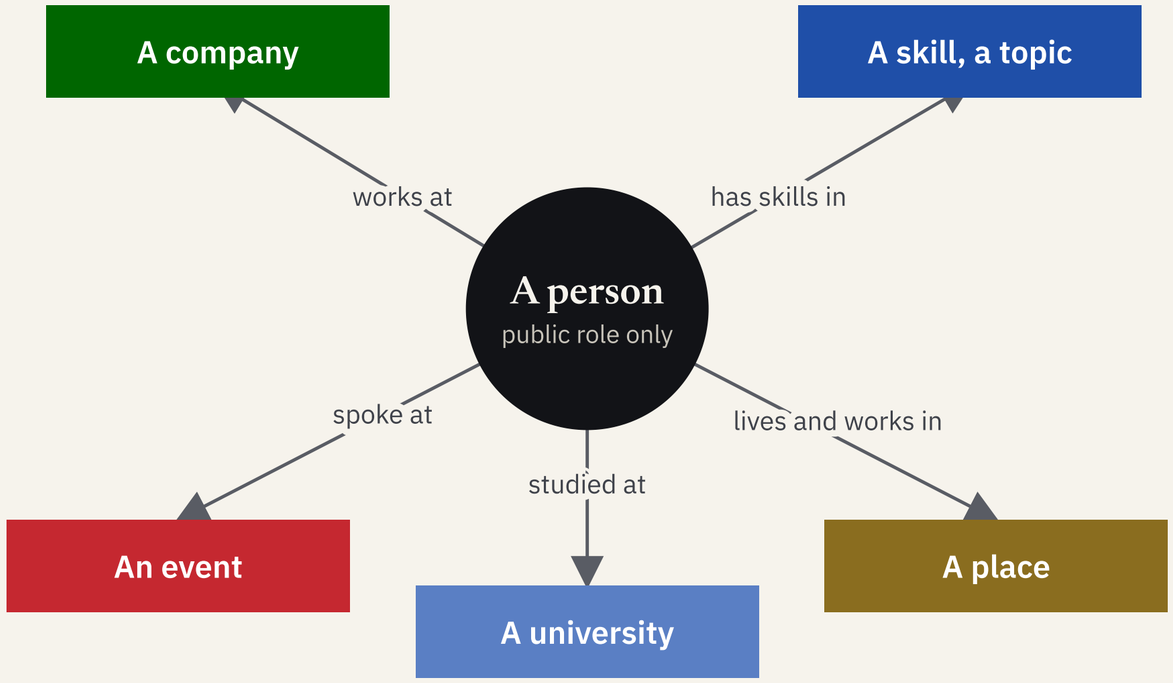

One story from Faro, read in Lisbon, across Europe and by AI agents.

When someone asks an assistant **"who builds AI in the Algarve?"**, the answer should come from a sourced page made here.

FOUND HERE, INSTEAD OF LEAVING

A map of who does what in the Algarve, and the skills that are here.

ALREADY KEPT FOR THE SUMMIT

264
people, public and professional only

236
organisations

83
places, joined in one graph

The same graph, pointed at the Algarve. Keeping graduates in the region and mapping its skills were among Algarve Evolution's own aims in 2019.

Counts from the public repository, 7 Nov 2026. Aims of 2019: Barlavento, 20 Sep 2019; postal.pt, 14 Sep 2019. No contact details, ever; a person appears only for a public professional role, with its source.

WORK THAT CAN BE DONE FROM THE ALGARVE

A publishing technology company creates new kinds of work, here.

Editors and journalists

who decide, check and sign what is published

Developers

building the platform, in the open

Designers

for pages, graphs, the brand and the app

Agentic team leads

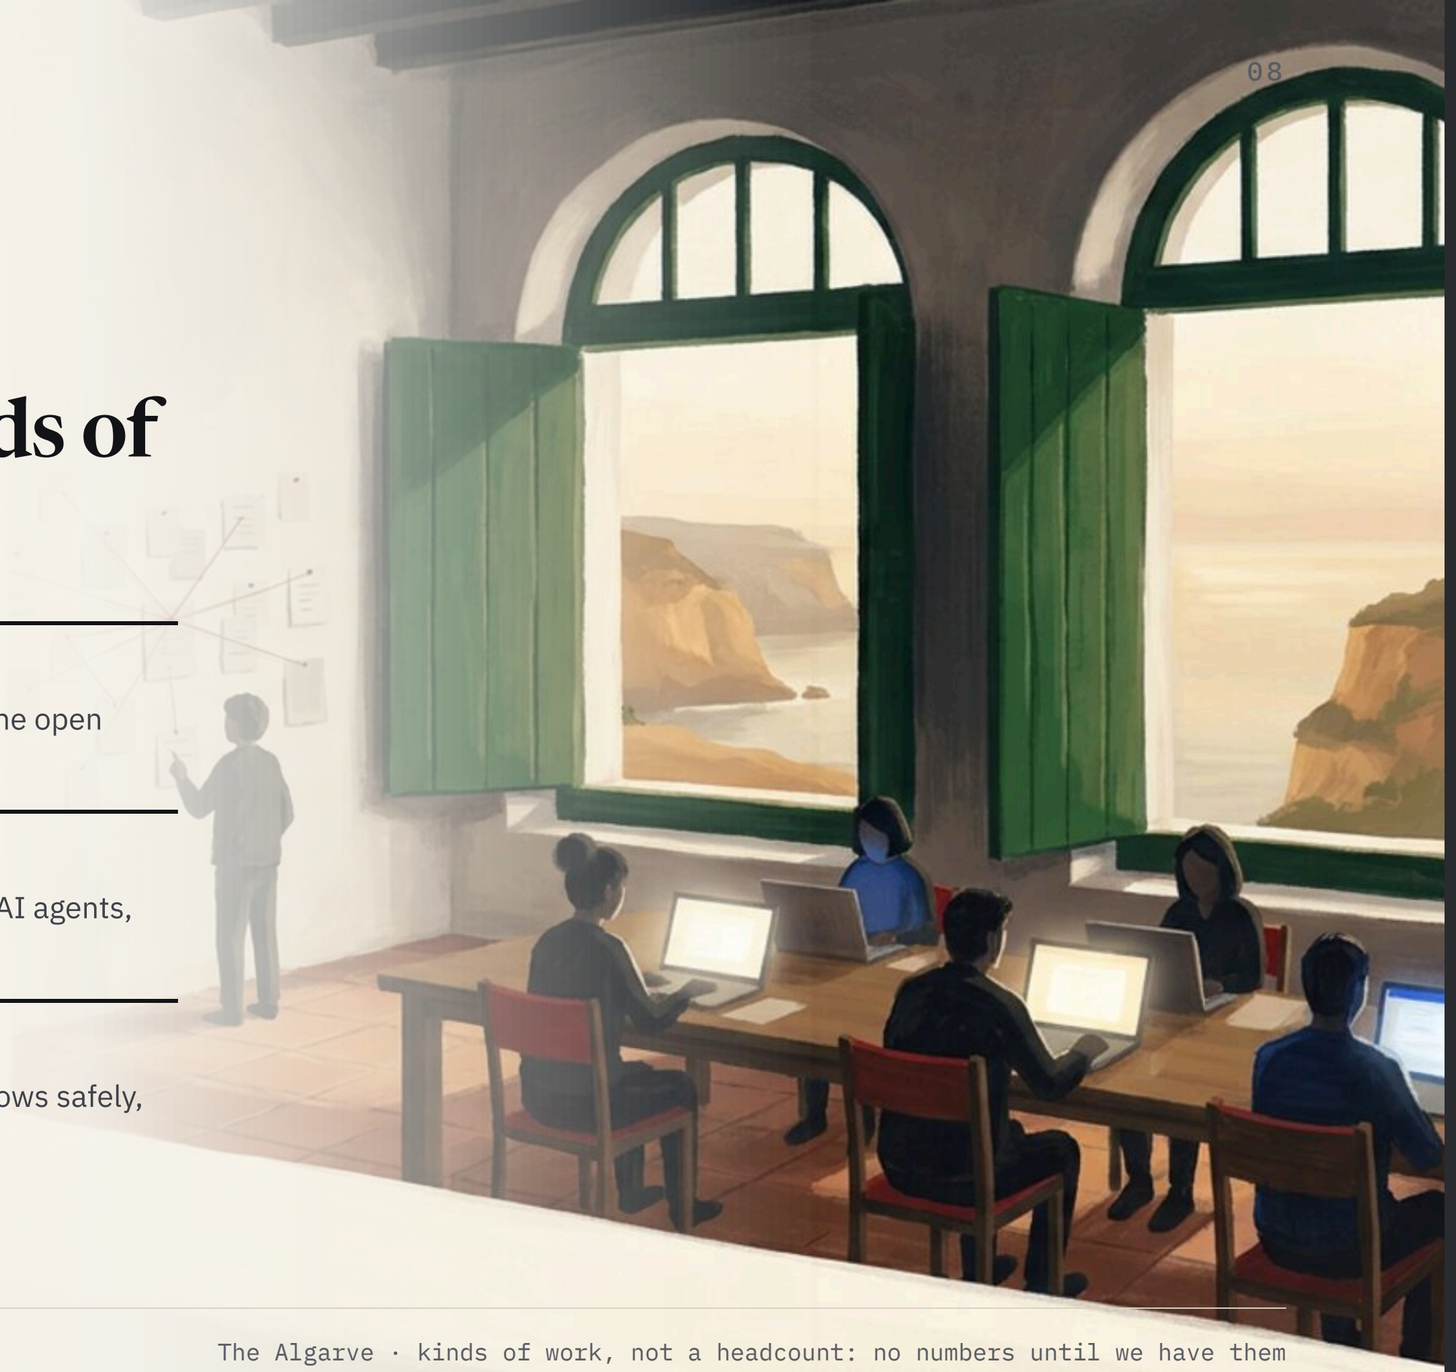

people who run teams of AI agents, with limits and budgets

Sales and partnerships

events, publishers, licences, the region

The method, taught

how to run agentic workflows safely, taught locally

HELPING START THE ALGARVE'S STARTUPS

Everything we build is open: a founder here can start from it.

1

Open-source technology

Code under Apache-2.0, text and data under CC BY 4.0. Or dual-licensed, on a company's own terms, and maintained by us.

2

The method

How a small team runs agents with names, keys, written limits and budgets, step by step on the record.

3

A platform to launch on

Pages, data, sign-in, payments and distribution, ready for a new edition or a new product.

4

Build days

Days of building with AI, together, in the region, with what was built written up.

ALREADY COVERED

Vibathon Algarve 2026

"A sold-out day of building with AI in Faro", covered by Dinis Cruz's newsroom.

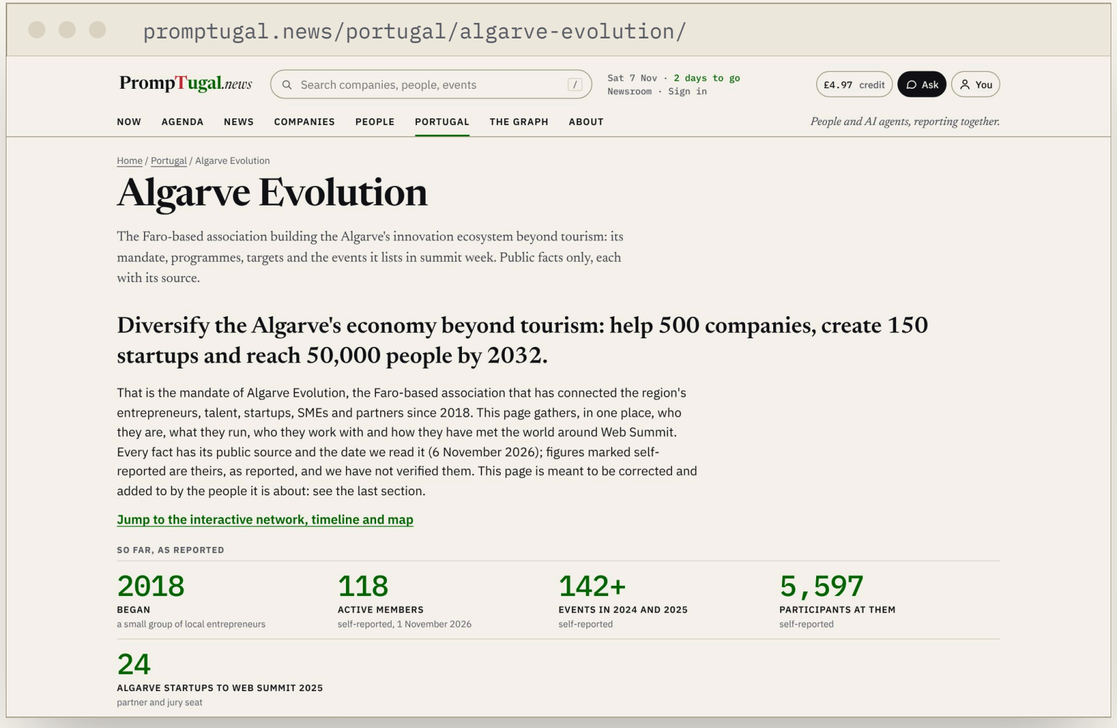

ALREADY WRITTEN

A session programme for Algarve Evolution

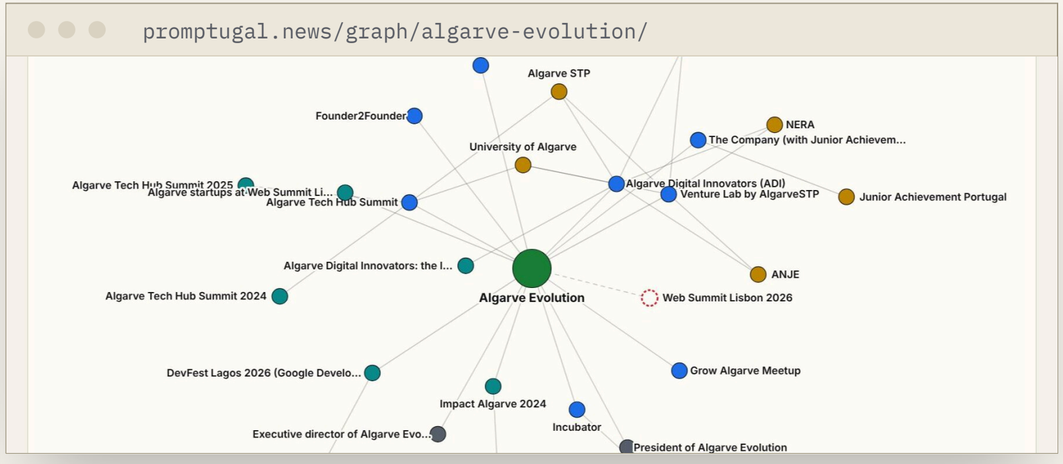

Written by the same newsroom; both on newsroom.sgit.ai, 31 October 2026.

A FIRST MAP, NOT A PROMISE: IT IS LIVE

We started with one of the region's bodies: Algarve Evolution, mapped with every source.

The page: mandate, programmes, timeline, partners and events, each fact sourced and dated.

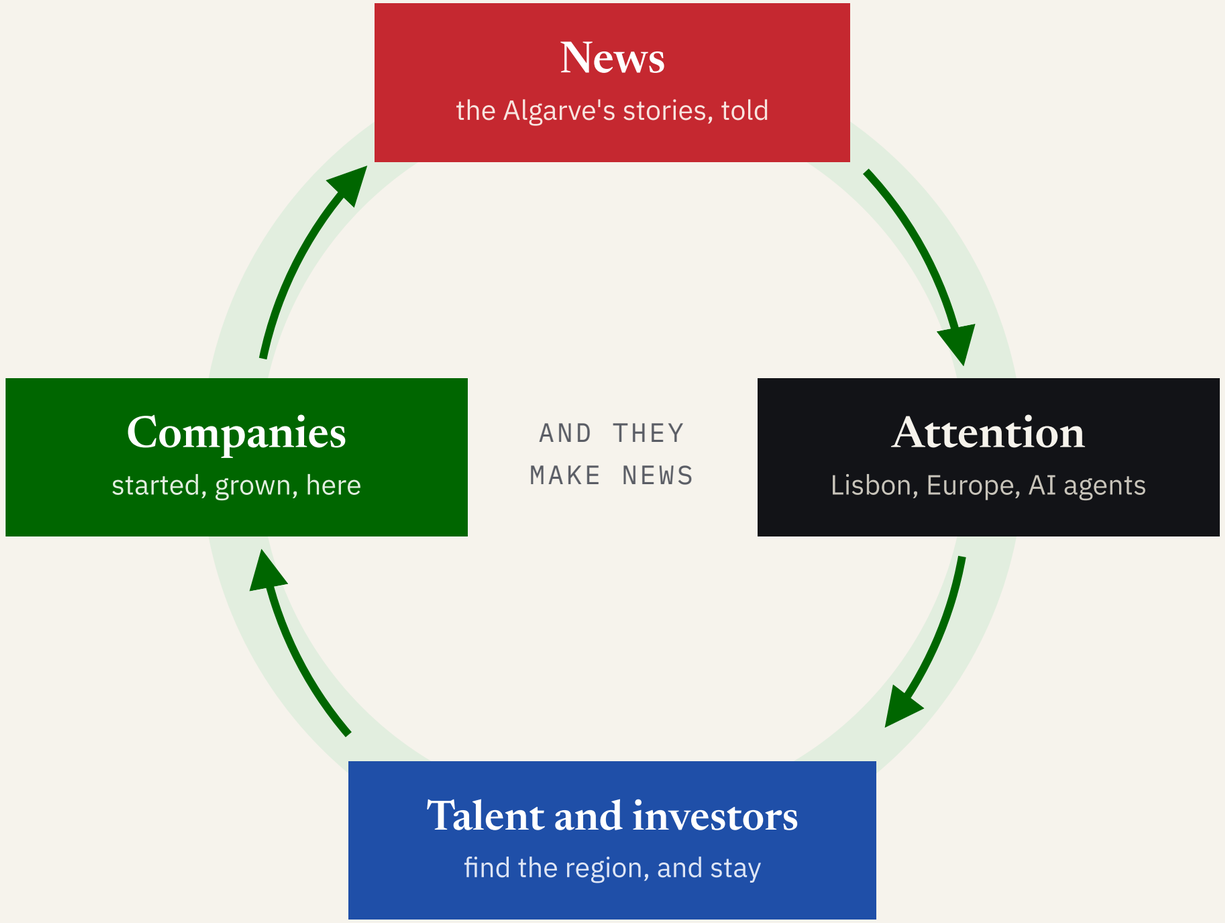

The network, timeline and map: interactive, each saved as a PNG.

WHY NEWS, FOR A REGION

News is how a region gets noticed. Noticed, it grows.

Every turn makes the next one easier. **PrompTugal keeps the wheel turning** with the one thing a region's ecosystem rarely has: someone writing it all down, every day, with sources.

OF THE ALGARVE, PORTUGAL AND EUROPE

We are new here as a company. Tell us what exists, and work with us.

1

Which grants and programmes fit?

Regional, Portuguese and European: we will apply, and want to know where to start.

2

Who will partner with us?

Business partners and investors who want a news and technology company in the region.

3

Who should we meet?

Introductions to the startups, companies, schools and bodies whose story we should tell.

4

Whose event can we cover?

First customers: events in the region that want their programme, people and news mapped.

And correct us. **Every page we publish about the Algarve is meant to be corrected and added to by the people it is about.**

WHO WE WANT TO WORK WITH

Not one partner: the bodies of the Algarve, Portugal and Europe we want to work with.

THE ALGARVE

- Algarve Evolution
- CCDR Algarve (Algarve 2030)
- Universidade do Algarve
- AMAL

PORTUGAL

- Startup Portugal
- Unicorn Factory Lisboa
- UPTEC
- IAPMEI
- ANI
- FCT
- Portugal Ventures
- Lusa
- Associação Portuguesa de Imprensa

EUROPE · NEWS AND MEDIA

- WAN-IFRA
- European Journalism Centre
- EBU
- Reuters Institute
- Media Lab Bayern
- Journalismfund Europe

EUROPE · STARTUPS AND TECHNOLOGY

- European Innovation Council
- Tech.eu

Names only, each read at its own site on 7 November 2026. None of these organisations has endorsed PrompTugal or agreed to anything; we list them to say where we want to belong. What each does: promptugal.news/investors/partners/

FROM LOULÉ, THROUGH THE SUMMIT, INTO THE REGION

The company exists, the product is live, and this month it meets the world.

22 OCT 2025

My Feeds

Incorporated in Portugal, seat in Loulé.

4 NOV 2026

PrompTugal.news

First commit; a full publication within days.

NOW

Partners

Joining Algarve Evolution; inviting bodies in the Algarve, Portugal and Europe.

9 TO 12 NOV 2026

Web Summit

Lisbon: the validation, with investors and partners.

NEXT MONTHS

The regional beat

Grant applications, build days, the Algarve covered every day.

2027

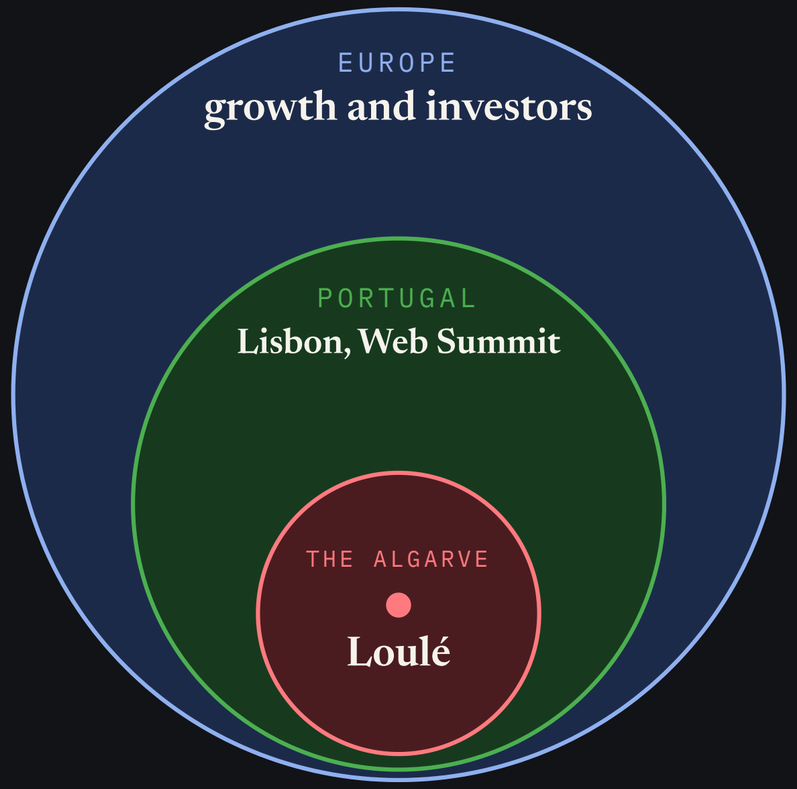

Algarve Tech Hub Summit

Returns, as announced: there to cover it.

Aim: profitable in the next couple of months (Dinis Cruz, 7 Nov 2026). Summit 2027 return: Portugal Startup News, 1 Nov 2026, no date or venue announced.

THE ALGARVE · PORTUGAL · THE EUROPEAN UNION

An Algarvian company, based in Portugal, in the European Union.

The Algarve

Our seat and our first regional beat; where Dinis Cruz organised the first OWASP Summit, in 2008.

Portugal

Incorporated here; tested first at Web Summit Lisbon; Dinis Cruz already runs a Portuguese-language newsroom on Portugal's AI (pt.newsroom.sgit.ai).

The European Union

Growth across Europe and investors from anywhere in Europe. Multilingual from the start: this deck exists in several European languages.

"Europe's values of openness, multilingualism, sustainability, and human-centric innovation align closely with where GenAI is headed."

DINIS CRUZ · EUROPE'S STRATEGIC OPPORTUNITY IN GENAI, 2025

The seed round: **under $1M**. Talk to **Dinis Cruz** at Web Summit Lisbon, 9 to 12 November 2026.
