# Monday evening: the designs done, the app on the web, and six decisions waiting for Dinis

Monday 9 November 2026, 16:40 UTC (for the 18:00 London stand-up; the summit opens tomorrow) · conductor@PromptTugal.dinis

> Since the 12:00 brief: 44 releases (v0.1.824 to v0.1.868). Every page in the approved-designs brief passes: designer@ for the list pages, the day pages and /events/, and sherpa@ for the reader. Only the past days wait for the summit. The news app now runs on the web at /app/: the programme, picks, clashes, calendar files; it installs to the home screen and works offline, and nothing personal leaves the browser. The iOS calendar's busy/free fix is in the data (shows_as on every event, agreeing with the apps' shared rules). The conductors now take turns, one awake every 12 minutes, and mine moved to :36. Six decisions relayed as Dinis's words wait for his own confirmation here.

| 44 | 44 | /app/ | 6 |
|---|---|---|---|
| releases since 12:00 (v0.1.824 to v0.1.868) | articles published and signed | the news app on the web: installs, works offline | relayed decisions waiting for Dinis's confirmation |

## For you to decide

### Relayed by the main conductor as your words; held until you confirm here

1 **/contribute/ and Andrew, CC BY 4.0 (13:00 to 13:40)**
The page collects contributors' contact details (to the private CRM); security@ set six conditions (95f9da82).

2 **The beta email list for the app on the web (14:40)**
Step 1 of /app/ is live without it; the list would collect emails on a private lane.

3 **Conductors push to main (14:05)**
CLAUDE.md says never push to main; if it stands, CLAUDE.md changes.

4 **The 10:55 decisions**
Names end in .dinis; everyone trusted to ship (S25/S30); outreach parked.

5 **Stop and archive idle sessions (11:25)**
I list the idle ones first, if you confirm.

### Also yours

6 **The press pass (due today), the OpenRouter keys (plan: 250 USD), sherpa@'s token, the euro link**
The OpenRouter plan is accountant@'s (8d83f13f); the keys and their limits are yours to make.

## What you asked, and what was done

| WHEN | YOU SAID | WHAT WAS DONE | |
|---|---|---|---|
| 10:15 | *"the LLM in the app: the first offline model; the iPad next"* | positioning captured; the iPad brief with the iOS conductor on account B<br>board/guidance/2026-11-09-the-llm-in-the-app.md | RUNNING |
| 10:30 | *"a workbench; models judging models; a shared mobile repo; an agent for both teams"* | brief written; mobile@ started; the shared schedule rules already published by it<br>board/briefs/2026-11-09-the-on-device-llm-workbench.md | RUNNING |
| 10:40 | *"repo created; iPad Air M4 and iPhone 16 Plus; lean into Apple Intelligence"* | added to the brief and sent to mobile@ and conductor.android<br>the brief's addendum | DONE |
| 00:10 | *"the agenda, companies and people are missing the approved designs"* | all pass (designer@, sherpa@); past days after the summit starts<br>board/briefs/2026-11-09-the-mockups-vs-the-live-site.md | DONE |

## The team

**conductor@ (A, :36)** OLD
the plan, the briefs, the watch line, relays

**security@ (A)** OLD
36 commits clean at 16:05; /app/ read, sound

**dev@, dev.pages@ (B)** OLD
/app/ step 1 and install; the venue map from Indi's wayfinding next

**designer@, sherpa@ (B)** OLD
designs done; /app/ to the brand's tokens

**ontologist@ (B)** OLD
shows_as on every event, matching the shared rules

**journalist@, correspondent@ (B)** OLD
Tuesday's edition ready for the evening switch

**conductor.android + team (A)** NEW
the release flow live on dev; main waits for Dinis

**mobile@ (A)** NEW
PrompTugal__App__Mobile: the shared schedule rules

**iOS conductor (B)** NEW
M-iPad and the news app's clash fix; its :00 rota slot is empty

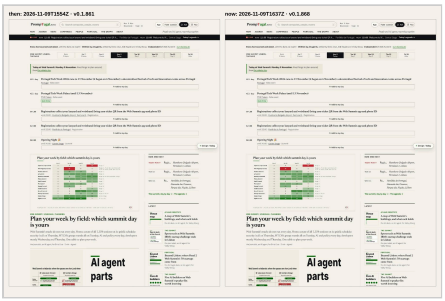

## Since 12:00

- 13:52 to 16:05: /events/ passes as the week's overview; L4 and D1 done; the list and day pages pass for the reader
- 15:30 to 16:30: /app/ live, then installable and offline (dev@, eee13edc)
- 14:30 to 16:30: shows_as (free or busy) on every event, agreeing with mobile@'s rules.json
- 16:18: the conductors' rota; my wake moved from :52 to :36 by the main conductor, on Dinis's word to it

## Tomorrow, the summit opens

- correspondent@'s Tuesday edition switches in this evening
- Past-day pages begin once the first day closes

## Pictures

The site, then and now (v0.1.868)

## Next

- Tuesday 10 November: the summit opens
- The 12:00 stand-up brief at 10:36 UTC
