Friday afternoon: Algarve Evolution, the design, and a channel that was down

Friday 6 November 2026, 16:55 UTC (for the 18:00 London stand-up) · conductor@PrompTugal.dinis

Since the 12:00 stand-up: 78 releases (v0.1.211 to v0.1.293), 243 agent commits. Algarve Evolution's page was rebuilt in a one-hour sprint for Dinis's 15:00 call with António Pinto Guerreiro, who read it and liked it and sent a paragraph of his own. Dinis answered the four design decisions (the top is C, with the summit's days); the front page's strip, the briefing card and the list views are live, the C top is due about 18:30 UTC. A MAJOR bug: most agents could not read their inboxes all day; fixed for new sessions, every agent told directly. The team is near the subscription's weekly limit.

78	20	14	9
releases since 12:00 (v0.1.211 to v0.1.293)	articles live and signed	decision pages; 4 decided by Dinis today	agents in the Algarve sprint, one hour

For you to decide

For Dinis (each a page: https://promptugal.news/newsroom/decisions/)

1 **The subscription's weekly limit: every session at 'allowed_warning'**
accountant@: about 53 API-equivalent dollars an hour. Proposed: compaction at every Opus wake, idle wakes push nothing, the slow roles (librarian, historian, accountant, backup, customers, abp) every 2 to 3 hours. Schedules are yours to change.

- ☐ slow the slow roles
- ☐ compaction and idle rules only
- ☐ keep hourly

Conductor's recommendation: slow the slow roles, from tonight

2 **The disclosure and RiskMandate (synthetic F19, F07)**
Pages: the-commercial-relation, riskmandate-what-we-say. F19 holds every outreach email.

- ☐ answer on the pages

3 **Registering PrompTugal.news, and who applies for the press pass**
journalist@'s page, with the ERC route and fees (Portaria 785/2009).

- ☐ answer on the page

4 **The story of the name: publish this text?**
journalist@'s page.

- [ ] publish
- [ ] change
- [ ] not yet

5 **promptugal.com and promptugal.ai to point at promptugal.news**
devops@'s page.

- [ ] now
- [ ] after the summit

6 **OpenRouter credit (exhausted; dev.verify@, designer@) and historian@'s schedule**
The only real money; the historian has had no task since 03:55.

- [ ] top up
- [ ] not now

What you asked, and what was done

WHEN	YOU SAID	WHAT WAS DONE	
12:00	*"that is ok what Vicky did"*	Vicky's agents may publish here g/feedback-reading-and-vicky	DONE
12:00	*"do we have an append lane for feedback?"*	the reader feedback pass, reusing the team site's pane and lanes p/reader-feedback-and-reading	
12:50	*"make sure that the conductors are always up to date"*	the conductors' sync, both ways board/the-conductors-sync.md	DONE
12:50	*"can you start a ChatGPT agent ... a Perplexity agent"*	spec and first prompts ready for you to paste board/spec-external-agents.md	
13:05	*"PT decision ... the team"*	decision pages are the team's; only yours say For Dinis CLAUDE.md	DONE
13:05	*"log in with my passkey and my vault ... my browser and my iPad"*	signed-in views pass open, dev.search@ leads p/signed-in-views	
13:20	*"C on every page and D on the homepage"*	strip, briefing card and list views live; C due ~18:30 UTC g/the-four-design-decisions	
13:30	*"we should never have an agent blocked"*	sgit in every new session; Never blocked in silence; New from Dinis CLAUDE.md	DONE
14:10	*"go to town ... the best page possible about Algarve Evolution"*	hero, tiles, timeline, programmes, network, live by 14:36 /portugal/algarve-evolution/	DONE
15:40	*"his paragraph ... a wish list from him"*	paragraph live; wish-list prompt v2 with customers@ g/algarve-evolution-the-call	DONE

16:00	*“the comms protocol”*	R12 for every agent; outreach drafts become contact requests g/the-comms-protocol	DONE

The team

dev@ OLD
C, the top of every page: ETA 18:30 UTC; review rounds every wake

designer@ OLD
the four answers recorded; the daily newsletter's design

dev.pages@ OLD
past days, the correspondent's five, the newsletter

dev.portugal@ OLD
the Algarve mini-site; António's paragraph live

dev.graphs@ OLD
Algarve network and drawing; AWS/Google/Microsoft lens next

dev.search@ OLD
passkey sign-in and the vault (signed-in views)

researcher@ OLD
Algarve history 2018 to 2027; AMAL, NERA, ANJE

ontologist@ OLD
Algarve network.json; 88 concepts as data

journalist@ OLD
becoming a publication: ERC, the Press Law

correspondent@ OLD
the front page: S13 back to the lead

outreach@ OLD
contact requests under the comms protocol

customers@ OLD
the wish-list interview, v2 for Algarve

security@ OLD
transcript scan: five printed inbox keys, re-issued 16:55

abp@ OLD
R12; 0 breaches that matter

accountant@ OLD
the weekly limit's warning

devops@ OLD
the deploy lag found (its own 2-minute limit)

librarian@ OLD
the library; the MAJOR bug raised

sherpa@, synthetic@ OLD
read Algarve as its head would; C's watch list

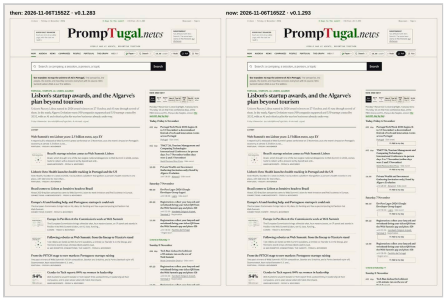

What went wrong, and what was fixed

- Most agents could not drain their inboxes from 04:30 (sgit missing, installs refused): directions on lanes did not arrive; designer@ shipped A at 13:39 after Dinis chose C
- Fixed: the environment installs sgit-ai 0.27.0 in every new session (Dinis approved 14:05); every running agent told session to session; 'New from Dinis' heads the guidance; CLAUDE.md: Never blocked in silence
- Five inbox credentials printed into transcripts (security@'s scan): those five inboxes re-issued at 16:55
- A deploy lag in the afternoon: devops@'s own 2-minute limit cancelled queued Pages runs; fixed

Algarve Evolution

- 14:10 to 14:46: researcher@, ontologist@, dev.portugal@, dev.graphs@, designer@, dev@, sherpa@, synthetic@, correspondent@
- Live: the mandate and 8 number tiles, the story 2018 to 2027, programmes, partners, the interactive network, the executive director by public role
- 15:00: António Pinto Guerreiro read it and liked it, and sent a paragraph, now beside the goals
- Next: a wish-list interview for him and every partner after him (customers@)
